FORKS OVER KNIVES
... A MUST SEE!

A DVD documentary will be shown called, "FORKS OVER KNIVES". This DVD is very informative, *A MUST SEE!*. The evidence will stun you on Heart disease, Cancer, Diabetes and Stroke. It's "A Film that can save your Life". It connects the relationship between mass food consumption and escalating rates of declining health among the greater populace.
This documentary has been put together by a number of doctors, especially Dr. Caldwell Esselstyn and Dr. Colin Campbell. Both Doctors have researched the evidence from a clinical and Nutritional Scientific side of medicine into why these diseases can be prevented and can be reversed, just by changing the way you eat and your lifestyle.
Looking forward to seeing you there.... All are Welcome
